**Van Ess—A Scientific Scalp Treatment**  
For the Promotion of Hair Growth

Science proves that only 5 in every 100 need ever be bald. But thousands of men, and women, too, are greatly concerned by falling hair, which leads to baldness. This is positively unnecessary, for Van Ess, the new scientific liquid scalp massage, is all that is necessary to remove dandruff, stop itching scalp and grow new hair. Van Ess, through its scientifically designed applicator, goes to the roots of the hair. It cleans out the infected sebaceous glands, which causes all of the trouble. Tones, cleanses, and nurtures the hair roots, which still live, and in a short time develops a growth of new, healthy hair.

**The Application**  
The Van Ess treatment is guaranteed to stop falling hair in two weeks and to grow new hair in 90 days. If it fails, your money will be refunded without argument. The manufacturer supports The Owl Drug Co. in this guarantee.

**The Guarantee Is Unqualified**  
At All Owl Drug Stores—\$1.50.

**SHIPS LEAVE MINOR PORTS**  
Interisland Freight Cut in Philippines  
Vessels Load Cargoes Where Products Grow  
Reduced Prices Attracting American Buyers

BY WALTER ROBB  
SPECIAL FOREIGN CORRESPONDENT  
MANILA, July 12.—United States Shipping Board vessels are solving the problem of getting raw products out of the Philippines without excessive interisland freight charges by going direct to the minor ports and taking on cargoes. For hauls to Manila, as much and often more is charged than ocean steamers charge for the trip across the Pacific, and by the new practice all this is saved and benefits the buyers in the United States and the producers in the Philippines.

At this writing the West Choptank is loading 2000 tons of copra at Legaspi, a port of Albay, and will then sail for San Francisco, where the cargo, loaded in bulk, will be discharged by means of suction tubes. The expense of sacks is eliminated, a considerable item during this period of extraordinarily high prices for jute.

**SUGAR LOADED**  
An Admiral Line steamer was the first to go to Pulupandan, a port of Negros, and load a full cargo of sugar for direct shipment to New York. The captain made a favorable report on Pulupandan (the name means Forest of Pandanus) being a fiber palm of the island) resulting in the pier being enlarged and made so that the steamers will lie parallel to the current while loading. Lights are being placed at the pier and on the southern end of the reef at that point, and on the shore opposite, so that the channel may be made at night and arrivals and departures subjected to no delay. It is now proposed by an American business man who is negotiating with the American and Japanese planters to have boats call at Davao after leaving Zamboanga and pick up Manila hemp for direct shipment either to New York or the Pacific Coast. The Shipping Board representative says that if the planters will bale their hemp and concentrate it at Davao, ships will stop and pick it up. It costs \$2.50 gold a bale to bring Davao hemp to Manila, which is more than the ocean freight charge to New York and two and a half times the rate to Pacific Coast. This is the first time that will be made, if the project materializes, and planters and cordage manufacturers will be the direct beneficiaries.

**PRODUCTION AIDED**  
Exporters point out that the natural corollary of such a service is better banking facilities in the provinces and a big impetus to production, and more purchase of goods from America would follow.

Customs officers, to clear the ships, are taken aboard at Manila. This is the more Gordian knot cut by Gov. Wood's administration. By the same methods imports may be distributed to the provinces. The collection of customs having the privilege to route ocean steamers to minor ports to discharge cargo.

**SOLDIER MYSTERIOUSLY SHOT**  
STANTON (Ind.) Aug. 9.—Sergeant Charles Glendon Gary, Ind., member of the Signal Corps, Indiana National Guard, sustained two wounds when his tent was fired on last night. His wounds are not serious. Attempts were made to pass military patrols several times during the night, and firing was general.

**HIS CHANCE COMES SOON**  
New Policeman Seen Wife in Another's Arms and Pursued  
CHICAGO, Aug. 9.—John Meyers, accepted today as a member of the police department, had an opportunity to use his newly acquired authority immediately after leaving the examining board. He was on his way home to tell his wife the news of his acceptance when he was surprised to see her ride by in an automobile with her arms around the driver's neck. He gave chase and when William A. Smith refused to submit to arrest there was a fight and both Meyers and Smith were taken into custody. Smith was fined \$25 and Meyers was discharged.

**FIRE CHIEFS HOLD MEMORIAL SERVICES**  
HEADS OF DEPARTMENTS OF MANY NATIONS TO MEET IN SAN FRANCISCO  
[BY A. P. DAY WIRE]  
SAN FRANCISCO, Aug. 9.—Memorial services and committee sessions in connection with the convention of the International Association of Fire Chiefs here beginning next Tuesday, marked the opening today of the annual convention of the Pacific Coast Association of Fire Chiefs. Chief Thomas Murphy of the San Francisco department presided. Mayor James Rolph detailed the delegates to the partial destruction of San Francisco by fire in 1906, saying that it was one of the historic confagurations of the country. The work of the firemen on that occasion is something that San Francisco will always point to with pride, he said.

John Shively, a member of the board of fire underwriters of San Francisco, responded to the Mayor's address of welcome. N. Ogata, chief engineer of the Tokyo fire department, and Charles A. Thurston, chief of the Honolulu department, arrived today. Chief Murphy went down the bay on the freight boat Scamell to meet the incoming chiefs and brief receptions were held. The visiting chiefs come as delegates to the international convention.

**HORSE BREEDER TURNS TO LITTLE HUMAN FLY**  
POLICE ARE LOOKING FOR MAN WHO WALKED DOWN OUTSIDE OF JAIL  
[EXCLUSIVE DISPATCH]  
NEW YORK, Aug. 9.—George C. McCreigh described himself as the horse breeder of Montreal. Detectives last night described him as a notorious hotel thief known as "Australian Phil" following his arrest at the Herald Square Hotel after he attempted to elude attendants by sliding down a bed sheet rope from a third to a second story window. The police today added "human fly" to their recorded description of the man.

For he escaped an unpleasant situation by going through a second floor window and down the front of the West Thirtieth-street hotel building when he was placed in the detention room after his capture in the hotel.

In so doing he violated all the rules of the police department for he was under arrest and supposed to stay until he could be removed to a cell in the Tombs today.

McCreigh was registered at the Herald Square Hotel and was supposed to be in a room near his own and failed to get away when he was "taken wrong room" apology when the occupant surprised him.

**BAY STATE**  
BRICK AND CEMENT COATING  
Dampness Can't Seep Through This Finish  
The beauty of Bay State Brick and Cement Coating changes the drab color of cement or stucco to a pure, rich white or one of many charming tints. And Bay State waterproofs the home it beautifies. It sinks into every pore and crevice and permanently seals the walls from dampness. Hardest rain cannot beat through a coating of Bay State. Write for samples and Booklet No. 4 today! NOW is the time to prepare for the next rainy season.

**CHIEFS STRIVE TO END STRIKE**  
Brotherhoods Tie Up Outer Belt Line at Chicago  
Conference Fails to Clear Up Situation  
Labor Organ Advises "Big Four" to Stick

[EXCLUSIVE DISPATCH]  
CHICAGO, Aug. 9.—Hopes of alleviating the complete tie-up of operations existing since last night on the Elgin, Joliet and Eastern Railroad when members of the Big Four brotherhoods walked out of their shops here with State militia, is hinged upon the outcome of a "peace conference" between officials of the road and of the unions scheduled for tomorrow at 10 a. m.

After vain attempts all day to "get together," it finally became known that no further headway could be accomplished until tomorrow at least. No statements bearing upon the situation could be procured from either side. The military authorities have also maintained silence.

Meanwhile the hundreds of engines and cars of the Outer Belt Line upon the service of which scores of big industries in and around Chicago are totally dependent, are idle.

As a preliminary move to tomorrow's activities in behalf of peace, a conference was under way this evening in the office of Acting Mayor Alfred Lindgren. Present were Lieut.-Col. Nelson A. Morris, commanding the militia; P. E. Caldwell, our family physician, and I suppose that it was then that he decided to multiply what I really owed him.

"I would have settled with him as soon as I was able, though, if he hadn't taken out the warrant and given me all this publicity. Now I have turned the matter over to my attorneys."

**LET ME OPEN YOUR EYES**  
YOUR EYES EXAMINED GLASSES COMPLETE \$2.65

An examination of your eyes, a pair of eyeglasses, for either reading or for distance, in a suitable frame, complete for \$2.65. One week only. **DEPARTED PYTHIANS' MEMORIES RECALLED**  
PLAN EXCHANGE OF SPEAKERS BETWEEN BAR ASSOCIATION AND KNIGHTS  
[BY A. P. DAY WIRE]  
SAN FRANCISCO, Aug. 9.—Members who have died since the past national convention were remembered at the biennial convention today of the supreme council of the Knights of Pythias and the supreme temple of the Pythian sisters with a memorial service. The speakers referred to the deaths of Edward Dunn of the District of Columbia and Henry Parish Brown of Texas, Past Supreme Chancellors of the Knights. Dunn held the office in 1918 and was associated with the founders of the order.

Another departed member, Fred E. Whetstone, Supreme Keeper of the Records and Seals, was also remembered in the services.

A committee of three judges, Edward C. Reynolds of Philadelphia, Me. William A. Owen of Covington, Ky., and Benjamin F. Bledsoe of Los Angeles was appointed by the Knights to confer with the American Bar Association, now in annual session here, to arrange for an exchange of speakers between the two conventions. It was pointed out that two-thirds of the membership of the Pythians order are lawyers.

This afternoon the delegates were guests of the San Francisco lodge, in a host trip around San Francisco Bay.

It was announced that no legislative resolutions will be considered by the Knights until after the election on Thursday, nor by the Pythian sisters until after their election on Friday.

**CROPS DAMAGED BY COLORADO STORM**  
[BY A. P. DAY WIRE]  
DENVER (Colo.) Aug. 9.—A hail and squall storm that broke over Platteville, Colo., and swept southward growing in intensity until it struck Brighton late yesterday did heavy damage to crops, according to the reports received in Denver today. No loss of life was reported.

In the Brighton district crop experts and county officials estimated the damage at \$200,000. Platteville and Ft. Lupton damage was also said to reach to a similar amount.

At its northern extent the storm swept an area of twelve miles wide.

**TAXI BILL CAUSES YOUNG CUDAHY WOE**  
PACKER'S SCTION DISPUTES CHARGES FOR CABARET EXCURSION  
[EXCLUSIVE DISPATCH]  
CHICAGO, Aug. 9.—Young John R. Cudahy, son of the late packing big game, from the bed he has occupied in the People's Hospital since the completion of a cabaret tour lasting several days, today admitted his indebtedness to Tony Plavin, a chauffeur, who recently swore out a warrant for his arrest. Cudahy, however, questions the amount. Plavin claims a total bill of \$270 for taxi service and personal loans but Cudahy says, according to his recollection, it isn't near that much.

"I don't blame the chauffeur," said Cudahy. "For it was my own fault in letting him learn my identity. He discovered who I was when I had him drive me to Dr. Caldwell, our family physician, and I suppose that it was then that he decided to multiply what I really owed him."

"I would have settled with him as soon as I was able, though, if he hadn't taken out the warrant and given me all this publicity. Now I have turned the matter over to my attorneys."

**Announcement of Public Importance**

With the specific object in view of seeking to decrease costs for a large number of Southern California firms whose purchases of bank and office supplies are large enough to be of considerable expense, yet not large enough to take advantage of the lowest possible prices, the Pacific Purchasing Corporation, incorporated under the laws of the State of California for the purpose of equipping a factory and carrying ample stock for actual cost service to its members only.

The concern has been incorporated for \$500,000, divided into 5000 shares. Each member of the corporation is limited to one share, which will entitle that member firm to full service provided by the Pacific Purchasing Corporation in furnishing bank and office supplies, furniture, filing device, printing, engraving and embossing, at cost. Under the terms of incorporation, the firm will be limited in the amount of overhead expense under which it may operate. It is not a profit-making concern, selling to its members at actual laid or production cost plus 10% for general overhead.

This represents a guaranteed saving in your total purchases of 10% to 25%.

Members only will benefit and membership is limited to 5000. No supplies will be sold to outside concerns.

The control of the organization will rest in a board of directors elected by the majority of members.

The total cost of membership is one hundred dollars.

This is merely following the trend of industry as a whole in eliminating items of general overhead with an assured quantity production thus offering the greatest possible value at the least possible cost.

Offices of the membership committee are Suite 617-19 Grant Building, where detailed information may be obtained.

# GOVERNOR IS IGNORED BY KEARNS

Promoter Goes Ahead With Plans for Dempsey Bout Despite Opposition

(BY A. P. MIGHT WIRE)  
NEW YORK, Aug. 9.—Opposition by Gov. McCray of Indiana to the Jack Dempsey-Bill Brennan match at Michigan City, Ind., September 4, will cause no change in his plans for the contest, Jack Kearns, promoter of the match, said tonight. Kearns said he was leaving tonight for Michigan City to discuss details of the match with the promoter, Floyd Fitzsimmons.

"If the law allows a boxing contest," he added, "I don't see how the governor can stop it. That's all its going to be."

CHICAGO, Aug. 9.—An offer for an eight-round match between Jack Dempsey, heavyweight champion, and Tom Gibbons of St. Paul, Minn., to be staged at the Park, Philadelphia, next month, was received today by Eddie Kane, Gibbons' manager from Louis Mails, Philadelphia promoter. Kane said he would accept if terms were satisfactory.

# SERAPHS CRUSH SACS IN TENTH

(Continued from First Page)

Lindimore and bringing the combat to an overdue finish. It was a wild game in spots and frenzied with freak features. Manager Pick started the game with Colwell, but that young gentleness was promptly unseated at the start, when two passes, stolen bases by Carroll, Deal and McCabe, a single by the latter and a safety by Daly promoted three runs. Two were down, but fearing that the third out might not come, Pick replaced Colwell with Canfield, who responded to this great honor by whiffing Lindimore.

Running wild on the bases was the king of outdoor sports. Nine bases were pilfered, with Seraphs scoring seven runs in the first, on McGaffigan's single, Kopp's sacrifice and McAuliffe's high throw. Seraphs scored another in the third, on McGaffigan's single, Kopp's sacrifice and McAuliffe's high throw.

Matchmaker Frank Crowley has assembled a pair of nifty 143-pounders for tomorrow night's combat in the main event at the American Legion Hollywood arena tomorrow night. Every seat, including the added 700 seats in the balcony, is expected to be occupied when these two high-class lads go to it.

# The Joy of Living

By Sidney Gowing

Chapter XXV  
TWO OF A KIND  
Almeida was a little girl of excitement as the Sphinx vanished. "She's away! And I don't believe they've seen her!"

"Alas, the morals of the age!" said Bertrand, and he laughed gently. "A sermon would not become me—I also am a coadjutor. I will observe the movements of the enemy."

He climbed quickly on to the shoulder of high ground that divided them from the end of the pit, and returned in a few moments. "Obviously our industrious police did not see her," he said, "they are now searching the last of the caves."

"Then it's time I got back into mine," said Almeida turning to dive back into her retreat. "I quickly catching her by the hand. 'That is no place for you.'"

"Why?" "The gentleman from Scotland Yard will search it before he leaves—he took my key for the moment, but he will make sure. It was merely that he was in a hurry. You must not get into any more can, like you friend the lady burglar. Come along!" said Bertrand.

"You're right!" ejaculated Almeida. With long strides they sped round the clump of bushes. Almeida in low of Bertrand, and turning sharp to the right, scurried up one of the steep paths that led out of the police.

"All clear!" he gasped, utterly out of breath. "Get to the Abbey, dear lady, and for pity's sake don't forget to get your very wearing. Go!"

"Thanks awfully!" panted Almeida, and departed as fast as her legs would carry her. The Sphinx retreated into the pit, mopping his brow. Taking no notice of the frantic signals of Billy he returned to the cave, dived into it, took a hurried look round, and kicked plenty of loose sand over a pool of oil that was the sole legacy of the Sphinx. He left the place with a sigh of relief, and encountered a single file of police, permitted himself to smile.

"Nothing doing!" said Inspector Arkwright. "Panks, will you go back. Bring the car down over the meadow; we'll get the man on it. Clear the pits, and set a watch in the cave. I'll be back with him." He moved towards the late stable of the Sphinx. "But I'm going to look through this place and make sure."

"By all means, Inspector," said Bertrand yawning. "I am a mere amateur. I can't see what's going to happen now." said Billy, and he kissed her with—as de Jussac would say—emphatic.

"Billy!" said Almeida a little breathlessly. "Aunt said we had to be decorous." "So we are," replied Billy. He kissed her again.

Half an hour later Billy, passing the main porch, encountered Lady Erythra. "Spencer," she said. "I was about to send for you. The person from Scotland Yard who had been left, informed me that he had not only captured one of the thieves, but that you had rendered him invaluable assistance. It really seems a remarkable ending to the affair."

"But it does not surprise me in the least," said Billy from the porch. "I am sure that you were more likely to make a success of this problem than all the police in the country, if they would only consult you. I would not say that you were right, in fact, is never wrong."

Lady Erythra contemplated Billy's tall figure and serenely handsome face with a certain regret. "I am sorry," she said, "that you are leaving Jervaux."

Billy smiled. "The way I have spent in my ladyship's service," he said gently, "has been the happiest time of my life."

Lady Erythra was not given to expressing her emotions. But her austere face positively tinged a faint pink color in pleasure. (Continued in Tomorrow's Daily Times.)

LOCAL PUG WINS  
(BY A. P. MIGHT WIRE)  
ATLANTA (Ga.) Aug. 9.—Frankie Garcia of Los Angeles was awarded the referee's decision over Jackie Sanders of Indiana at the end of a fast ten-round featherweight bout here last night.

# Insist upon Long-Bell Doors

easy to fit and to hang and to mortise for locks and hinges—saves 25 to 50¢ per door of carpenter's time

PRIDE in a California product is only one reason for insisting upon Long-Bell all California White Pine Doors for the interior of your home. You should insist first upon Long-Bell doors because they have no superior in design and quality and also because you can buy them for the same price you would pay for just ordinary doors.

CALIFORNIA DOORS FOR CALIFORNIA HOMES

Schools and Colleges  
San Diego Army and Navy Academy

located at Pacific Beach, a delightful suburb of San Diego, is appealing to thoughtful parents, because of its high scholastic and military standards and the great heart interest it takes in a boy. Although it ranks high in its charges are less—eight hundred dollars will cover cost of tuition, board, light, heat, use of books and equipment, and laundry to the amount of 60¢ per week—practically the entire expense except uniforms and textbooks. No school, regardless of its charges, has a higher rating or is doing more thorough work.

The Academy has enjoyed the University of California's "Division A" rating ever since there was a "Division A." It was the first private school in California to secure accreditation at West Point.

CAPT. THOS. A. DAVIS, Pres., (late Sixth U. S. V. Infantry,) PACIFIC BEACH, CAL.

DAILY TRADE TALK

Gold and the Man; Municipal Borrowing; California Financing; Oranges Away from Home

"Gold," says Guglielmo Ferrero in the Outlook, "is dead because it endeavored to dominate the world in place of other and more legitimate authorities," and will come to life again only when "gold and man shall each be servant and master, with a less feverish desire to dominate each other." A somewhat cryptic utterance which follows a very interesting sketch of gold's service to man. "Gold has but one virtue," says Ferrero, "it shines, it glows, it dazzles like the flame, it never goes out and never needs to be lit again." We quote further:

"Once upon a time gold was one of the splendid things of life, a lesser brother of the sun. It glittered on statues and furnishings on pictures and books, tables and chairs, on uniforms and medals, on the heads of kings, and about the brows of saints; it caressed the necks of women and encircled the wrists of men. The most gorgeous ornament in the world, it was at the same time the faithful minister of riches. The only one she trusted as she did herself, convinced that he would never betray her, as alas the fruits of the earth, the sea's promises, the words of men, and the laws so often did."

A larger movement of goods is promised in the character of reports coming from different parts of the country to agencies that are testing out mercantile sentiment. Steady and conservative money plentiful, unemployment rare and commercial stocks small. The railroad situation is the only obstacle to an active fall trade.

More abundant now than ever before, it is yet hidden in vaults because it satisfies no imperious need, and because the world has divorced itself from ancient symbols of authority and perfection everywhere except in the embellishing places of women. Gold has been wasted in idleness. Its power has been bound down to adorn and ornament. Men stripped it from its show places, minted it and put it to work instead of a beautiful of churches and palaces, a thing for the wealthy to eat and drink from, it became at once the servant and master of man. But in time, while its authority as money continued unabated, its use as such declined. Paper was more convenient, more safely exchanged, and quite as easily made representative of purchasing power, so long as the vaulted gold, imprisoned in vaults, was behind it.

But Ferrero sees the departed glory of gold and calls it dead. But it will rise again, he believes, and "return to the light of the sun." But never to the purpose it once served. As an adornment it has passed into the hands of the few, too few to make it a better legal tender. Banking system has made the check a swifter, surer and more convenient medium of exchange. Gold still is precious, but in the multiplied business transactions of the world it now represents it as it looks out of sight, and wholly out of mind when men talk of dollars and prices and property and wealth.

The absorption of California industrial bonds and notes by California investors, in June, was learned in volume for the first time, except May. The total for June was \$11,397,000, or \$14,615,000 in May and \$16,250,000 in February, the next highest month.

At the same time the percentage of California industrial and public utility issues combined, in June, compared with all such issues in the United States was nearly three times the proper percentage on the basis of population. In other words, with 3.23 per cent of the population, California absorbed 9.41 per cent of those classes of bonds, according to the compilation of Cyrus Pierce & Co.

The percentage of industrials to the total for the country was 11.24 per cent or more than three and one-half times, and of utilities was 7.14 per cent or more than twice the assumed ratio.

The computation shows the following:

State	Industrial Issues	Public Utility Issues	Total
California	\$11,397,000	\$14,615,000	\$26,012,000
United States	\$1,000,000,000	\$1,000,000,000	\$2,000,000,000

In the Pacific Coast territory, the securities of the Los Angeles Gas and Electric Corporation hold a government position due to the unusual strength and earning power of this organization and the current issue of General and Refunding Mortgage 3 1/2% Gold Bonds offers an especially attractive opportunity for safe and permanent investment, with good yield, at the present low price. Write for circular or telephone Broadway 75.

MARKETS WAIT ON THE FUTURE

Status Quo Preserved Through Day of Inaction

Situation Critical With No Sign of Uneasiness

Mark and Frame Again Hover Over Lowest Level

BY ALEXANDER DANA NOYES

(REUTERS DISPATCH)

NEW YORK, Aug. 9.—That financial markets should to all intents have stood motionless today was natural enough, with the labor controversies in so peculiar a position. All signs continued to indicate termination of the coal strikes but no announcement of any kind came during business hours, and meantime the railway mechanical strike had evidently reached a series of tightening deadlocks. Knowledge that consolidation of the President's compromise plan for railway action and the railway managers is not for Friday, with the presumption that no fresh development in the controversy would occur until that day, left the situation absolutely unchanged.

The most that could be said of the day's movement was that the stock market gave no sign whatever of uneasiness and that the bond market again moved fractionally upward. If the nature of the negotiation and the probable lowest price in nearly a month, not much above the year's low rate of 7.75%, this particular weakness may easily have resulted from the day's random talk in London of a break-up of the conference and a strain on the Entente.

It is not at all probable that financial markets were seriously impressed with the second of these suppositions; but the deadlock between England and France, official opinion with Germany simply assuming the attitude of a helpless onlooker, was discouraging. The one ground for hope of at least a working basis of international policy was the evident fact that the existing position of affairs no longer leaves the old attitude of drift a possibility.

According to wire advice received by Elyth, which is a strong indication that the situation is not likely to change, the following summary of the day's movement is given:

DIVIDEND ACTIONS

According to wire advice received by Elyth, which is a strong indication that the situation is not likely to change, the following summary of the day's movement is given:

What Makes a Good Paper Mill

Seldom does a company have conditions both natural and artificial so favorable to successful operation as is true in the case of the Washington Pulp & Paper Corporation, located at Port Angeles, Washington. Nature made this spot the ideal location for a paper mill. The company operates under such favorable conditions as:

- Harbor facilities part of the plant.
- Pond for storage of logs.
- Soft water for manufacturing purposes.
- Well nigh inexhaustible timber supply of spruce, hemlock and white fir.
- Modern buildings of reinforced concrete.
- Equipment installed for maximum efficiency.
- Hydro-electric power at low cost.
- Rail transportation by two railroads.
- Plenty of good labor.
- Output contracted for four years.

This is the company back of the Washington Pulp & Paper Corporation First Mortgage 6 1/2% Bonds due 1941, and non-callable prior to 1931. Price 100 and interest to yield 6 1/2%. You will want to know more about this company so favorably situated. Write today for full information.

## A NATIONAL PLAYGROUND

Santa Monica holds a unique position as a playground, resort and meeting place of national and international interest and importance.

People first came to Southern California because of its climate. They will always come for that reason, but the attractions of this new empire and its capital city have so increased that henceforth Los Angeles will divide attention with New York as a leading center of interest.

Los Angeles has always been thought of as a place to play, and although it is becoming one of the great places for business and for work we hope that its reputation as a place to play will continue and grow greater. Where else are work and play so happily joined?

Located in the front yard of Los Angeles, forty-five minutes from the central business district, is Santa Monica Bay, seventeen miles wide by eleven miles inland. Forming its crescent coast are the Santa Monica Mountains and Palisades. Dividing these mountains and plateaus are Santa Monica, Rustic, Temescal, Topanga and other beautiful wooded canyons.

This great natural park in the front yard of so great a city is a blessing that cannot be put into words.

We have national parks more or less isolated and a long way from thickly settled communities. Most of these you see once in a lifetime, if at all.

Here we have a place open every day in the year and available to vast numbers of people for the enjoyment of its beauties, for recreation and for residence.

Social life and play will here be developed to the highest degree. Inspirational activities and results will here have highest unfoldment.

Hundreds of thousands of people will have beautiful homes. Wealthy people will have magnificent estates. There will be many unique and great hotels—the center of social life or for quiet retreat.

Some people will spend the summer here and others the winter. All the year is ideal.

Great conferences and conventions will be held here—of local, national and international importance and participation.

Santa Monica already has a fine municipal auditorium. Pacific Palisades will soon have one to seat five thousand and later ten thousand. A peace temple is planned for one of the foothills looking for many miles over land and sea. These are the beginnings.

When the breakwater and yacht harbor are built Santa Monica Bay will be a center of interest for people all over the country who love the water.

When there are races the palisades, plateaus and mountains will enable hundreds of thousands of people to watch them from start to finish. The islands off shore will form interesting objectives for cruises.

The Uplifters' Club, a group of leading Los Angeles business and professional men, after protracted search, selected Rustic Canyon at Santa Monica for their club home and playground. Many of them are building cottages there. At the top of the

page are pictures of an Indian pageant play at one of their outings. The ancient giant sycamores and oaks used to shade and shelter the Indians and their dances.

The Southern California Methodist Episcopal Conference, after examining all territory hereabout for a home, bought eleven hundred acres at Santa Monica on which to build an ideal city of homes, a place for conferences and for the Chautauqua of the Pacific.

Thus are combined all the elements of ideal living, inspiration and play. Every form of recreation is at hand—or will be with the building of the breakwater—golf, bathing, boating, flying, horseback riding, hiking, touring and all of the sports all the year around.

At the lower left you will glimpse a nearby country club and on the right the Brentwood Country Club in the territory described. Just below a Boy Scout camp in Temescal Canyon. Other pictures explain themselves.

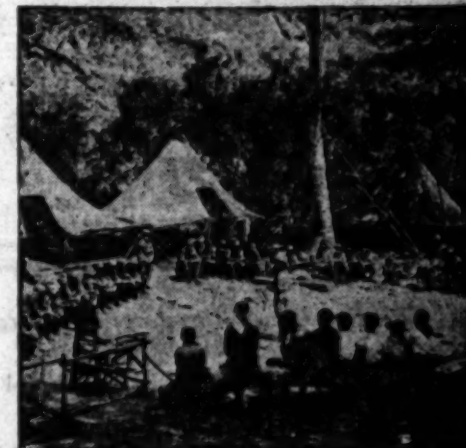

Every day in the land of play is a beauty and a joy. A home at Santa Monica will put one in close touch with more pleasures and interests than probably could be found in any other place on earth. The lavish hand of nature combined with the numberless interests of the metropolis have made this well-nigh man's most perfect home.

Greater Santa Monica Club invites you to make your home in Santa Monica and take part in the great activities here. You will want a home here some time and it will cost a great deal less now than later. Come or address

## URGES ACTION ON FRANCHISE

Mallard Asks Approval of Santa Fe Plan

Application Pending for Harbor Extension

Sanborn Would First Work Out Routing Plan

Councilman Mallard at yesterday's session of the City Council urged immediate action in approving the Santa Fe application for a franchise to extend its line to Los Angeles Harbor. The application is still pending before the Council's Public Utilities Committee, although its approval has been recommended by the Board of Public Utilities. Harbor Extension Commissioners, as well as the Los Angeles Chamber of Commerce, the Associated Jobbers, the Chamber of Commerce at Los Angeles Harbor and those of all of the beach and adjacent cities.

**HELP SANTA FE**  
"All of the members of the Council," said Councilman Mallard, "declare that they favor and approve of the Santa Fe extending its line to Los Angeles Harbor. The application is still pending before the Council's Public Utilities Committee, although its approval has been recommended by the Board of Public Utilities. Harbor Extension Commissioners, as well as the Los Angeles Chamber of Commerce, the Associated Jobbers, the Chamber of Commerce at Los Angeles Harbor and those of all of the beach and adjacent cities."

Councilman Mallard's remarks were occasioned by the introduction of a resolution by Sanborn, chairman of the Public Utilities Committee of the Council, calling a conference of the city's harbor and public utilities boards with the State Railroad Commission to work out a general plan for the routing and location of all railroad and terminal tracks and facilities at the harbor. Councilman Sanborn denied in reply to Councilman Mallard's objections, that the plan of calling a conference would in any way delay the Santa Fe in carrying out its plans.

**RESOLUTION RECORDED**  
The Sanborn resolution was seconded by Councilman Conaway. He said that all of the Councilmen were in favor of the extension of the Santa Fe Railroad into the harbor district and were willing to do so in the shortest time possible, but he pointed out the necessity of establishing a complete railroad plan for the harbor district now to avoid future duplication of tracks and terminals.

"The railroad and the people will be glad," said Councilman Sanborn, "that we worked out a definite plan for the extension of the Santa Fe. I am sure that the Santa Fe will be glad to build into Los Angeles Harbor so as to fit into the general plan, and it will save thousands of dollars in the future."

## RECORD OIL SHIPMENTS

Los Angeles Harbor Destined to Be One of World's Greatest Centers for Fuel Export

Los Angeles Harbor will within two years become the world's greatest oil port, shipping men declared yesterday following the announcement that during July 3,135,575 barrels of fuel were shipped out of the harbor. The exports which exceed by several hundred thousand barrels all previous records, include shipments of only the three large companies, the Standard Oil Company, the Standard Oil Company, and the General Petroleum Corporation.

During the twenty-four hours ending at daylight this morning, approximately 130,000 barrels of fuel oil will have left the harbor on seven American tankers. The arrival here next week of the new Japanese steamer *Tamama Maru*, from Kobe, will not only mark another big expansion in Los Angeles harbor activities but also will serve to inaugurate the new direct service of the associated "K" lines to Los Angeles Harbor.

The first of a fleet of ninety new steamers operated by the lines to call here, the *Tamama Maru* will load her entire cargo at this port. It will consist of 90,000 cases of kerosene, 1000 drums of the same product and more than 1000 tons of general cargo. The oil shipment is destined for Shanghai delivery.

Representatives of D. W. Ferguson, local agent for the "K" line, announced yesterday that a regular monthly service will be operated direct to Los Angeles from the Orient. The company's fleet of oil tankers will also call here regularly, it was said.

**COASTWISE CARGO CARRIERS**  
Steamer *Sanborn*, from San Francisco, arrived at 10:30 a.m. today. The ship is carrying a large cargo of goods and passengers. It is expected to leave for San Francisco tomorrow morning.

**OFF SHORE-LOADING**  
French steamer *Sanborn*, from San Francisco, arrived at 10:30 a.m. today. The ship is carrying a large cargo of goods and passengers. It is expected to leave for San Francisco tomorrow morning.

**OFF SHORE-EN ROUTE**

Steamer *Sanborn*, from San Francisco, arrived at 10:30 a.m. today. The ship is carrying a large cargo of goods and passengers. It is expected to leave for San Francisco tomorrow morning.

**GIVEN TABLE**  
Video are taken in the order of their occurrence. On most days but three times occur, the results of the following morning. The results are taken from the following morning.

**PTOMIAE POISONING OUTBREAK SERIOUS**  
LYNDHURST (N. J.) Aug. 9.—Boboken and local physicians since Monday have been attending numerous cases of what is apparently ptomaine poisoning among employees lodged in the Kingsland car shops of the Delaware, Lackawanna and Western Railroad here. More than sixty men and women were stricken and a dozen cases are still serious.

In addition to more than fifty men, Mary Frangione and Mary Franchini, employed as laundresses, are ill at their homes. Six men are hospital cases. Dr. Ernest McDade of Lyndhurst, one of the first physicians summoned, reported the cases he treated as ptomaine poisoning.

**NECKLACE SNATCHED OFF**  
CHICAGO, Aug. 9.—Theft of a necklace valued at \$1000 was reported to the police today by Mrs. Mae Diamond of Kansas City, Mo. She said it was stolen as she walked along the street.

**Aid Given Women Who Were Caught in Heavy Rip Tide at Long Beach**

By a "Times" Staff Correspondent  
(EXCLUSIVE DISPATCH.)

LONG BEACH, Aug. 9.—One of the most thrilling rescues from the history of the Long Beach bathing season came today when it became known that Mrs. E. E. Cappe and her daughter, Mrs. R. H. Hanna, wealthy leaders of society at Tulsa, Okla., were rescued from the surf in front of the Hotel Huntington by the lifeguards.

The women were found by the lifeguards, who were on duty at the hotel. They were rescued from the surf in front of the hotel. The women were found by the lifeguards, who were on duty at the hotel. They were rescued from the surf in front of the hotel.

**Two Signatures of Woman Halts Huge Bond Sale**

By a "Times" Staff Correspondent  
(EXCLUSIVE DISPATCH.)

PASADENA, Aug. 9.—A woman's signature is holding up school construction in Pasadena, it was learned today.

When the Board of Supervisors came to sell the \$1,340,000 worth of bonds authorized at the recent school district election, it was found that one of the election officers, a woman, had signed her name twice, and signed it differently each time, to election returns.

So the Supervisors sent the returns back for correction. So small an error, their counsel held, might invalidate the issue.

Bids cannot be asked for on several buildings for which plans are ready until the bonds are sold.

N. G. Folker, clerk of the Board of Education, got the signature corrected today, but the delay caused by the error will be a week or so at least, it was said.

**SCREEN STARS ARE SEPARATED**

(Continued from First Page)

western characters, after two years of retirement.

Asked to affirm or deny the report, Mr. Hart replied:

**NOT NEGOTIATING**

"I am not now, nor have I, negotiated with Mr. Laaky for a contract. I was informed by Mr. Laaky that as soon as I was ready a contract would be executed. I expect to go to work in about two months."

"Do you think this difficulty will in any way interfere with the consummation of this contract?" "I hope not," Bill replied with a laugh. "Frankly, I hadn't thought of this possibility. I'm something like the fellow walking down the street and asked if he were going to jail. His reply was to the effect that he hadn't stolen anything. I haven't done anything to warrant such action."

Mr. Hart and his wife were married on December 1, last, after a courtship extending over a period of three years. The two became acquainted first during the filming of "John Petticoat," in which Mrs. Hart played the leading feminine role. Both were mutually attracted, but during the ensuing years, Miss Westover played with various producing companies, even playing six months in Sweden.

**KEPT WRITING TO HER**

All during this time Bill couldn't forget the little Swedish girl and kept up correspondence with her.

Last October he rushed off to New York on an asserted business trip, but while there it was noted that he and Miss Westover were together a good deal.

Shortly after Hart's return to Los Angeles, Miss Westover and her mother arrived here, and several days later the wedding took place.

A honeymoon to San Francisco, where Mrs. Hart lived for many years, ensued and then the couple returned to Los Angeles and took up their residence in Beverly Hills, where they resided until Mrs. Hart moved to Santa Monica three months ago.

**HART'S STATEMENT**

Mr. Hart's statement to the press follows, in part:

"I have repeatedly, and up to this moment, denied that there has been any difficulty between Mrs. Hart and myself.

"An article published this afternoon containing statements which, it is intimated, came from Mrs. Hart's attorneys and some of them are untrue, particularly those referring to Mary Hart, my sister, and to Will H. Hays.

"Mrs. Hart and myself separated about three months ago, and a few days later property contracts were executed, making ample provision for her maintenance—as well as for our unborn child, which is expected in September. Whether she contemplates divorce proceedings or not I have no knowledge.

"It is untrue that my sister assumed charge of my home when Mrs. Hart left. My sister went to New York prior to the separation and is still there. She has never regularly lived in my household since my marriage. She lived at my Newhall ranch until she went East. The threat against her for the alienation of my affections is too absurd to merit comment.

"Will H. Hays has never acted as intermediary, nor did he attempt any reconciliation while he was here. In fact, to my knowledge, he does not even know about the matter.

"It is especially cruel and un-

**NEW CHARGES PILE IN**

**Attorney Says Great Volume of Added Complaints Received Against Long Beach Official**

By a "Times" Staff Correspondent  
(EXCLUSIVE DISPATCH.)

LONG BEACH, Aug. 9.—Formal charges against City Manager C. E. Hewes, which opponents of his administration promised Monday night to place in the hands of Mayor Buffum within twenty-four hours, had not been drawn up in their entirety late today and it was intimated by Attorney L. N. Wheaton, counsel for the opposing forces, that additional complaints are being sent to him from citizens in such volume that completion of the charges will not be made until tomorrow.

Investigation of the additional on Officer Reusch on the beach several days ago, was fined \$50 and sentenced to twenty-five days in jail.

The jail-term sentence was suspended and the life guard was given a week in which to pay the fine. The unequal battle between the three life guards and the lone policeman created a near riot on the beach, hundreds of pleasure seekers rushing to the scene of the fray. Officer Reusch came out of the battle with but few marks in spite of the odds against him.

"We have no fault to find with the crew of the ship," said Mr. Wheaton, referring to the Mayor and the Council, "but we want to drop the plot as soon as possible."

**TRUCE IN FEUD**

There was a truce today in the long-standing feud that broke out in a battle on the last night between Patrolman Barney Reusch and Waldo Ballard, Howard Evans and Roy Baker, municipal life guards, when the belligerents shook hands in Justice Underwood's court and agreed to agree hereafter.

Arraigned on charges of assault, Waldo Ballard and Howard Evans, were given sentences of twenty-five days each in the County Jail. The sentences were suspended. Roy Baker, the third life guard who participated in the alleged assault

**Increased Rent, Brass Knuckles, Cited as Cruel**

Mrs. Mary Plaffner caused her husband's rent to be raised \$4 a week. With this as one of the allegations, Charles M. Plaffner yesterday sued his wife for divorce, charging cruelty.

The wife, so the complaint states, made such a racket in one apartment house that the landlord raised the rent. Then, at another place, she had a violent row with the landlady and shut out a portion of the house that the owner was entitled to use, the complaint recounts.

The next act of cruelty mentioned in the complaint states that Mrs. Plaffner threatened her husband's life and that on one occasion he reached under the bed and found a pair of heavy brass knuckles. She also threw a plate and a dishpan of water at him, the document charges. Mr. Plaffner is legally represented by George Good.

**SUSPECTS ARRAIGNED**

Three youths accused of many robberies sent to jail

Three youths, accused of numerous robberies in this city, were arraigned yesterday before Justice Hanby. Ten counts of robbery were charged against Frank Norwood, alias Frank Nordhoff, said to be the leader of a gang, in a complaint issued by Dep. Dist. Atty. McClelland. His bail was fixed at \$25,000. For the other two, Clifford Shadley and Charles De Forge, who are accused in five counts, was fixed at \$10,000 each. All three were committed to the County Jail until their hearing.

Look for this Seal.

## Electrify Confidently—with certified materials and service

**THE** secret of efficient electrification is to do away with the factor of chance at every stage of the operation, from the initial choice of materials to the completion of the installation.

That is why the products of the General Electric Company, which are universally recognized to be of the highest quality, are sold under the "check" seal, which means that the manufacturer's guarantee is further certified by the Pacific States Electric Company, the largest distributor of electrical merchandise on the Pacific Coast.

Not only does the "check" seal certify the standard quality of electrical materials and appliances, but it is also a helpful guide in determining the qualifications of the electrical contractor who makes the installation, as the products which the Pacific States Electric Company marks with its seal are distributed invariably through qualified electrical contractors and dealers. Sub-standard contracting service is usually based on sub-standard materials; such service is expensive in the long run, and is never satisfactory.

The contractors and dealers operating under the policy which entitles them to use the "check" seal of the Pacific States Electric Company are fully qualified to meet the requirements of the high standards maintained by such manufacturers as the General Electric Company.

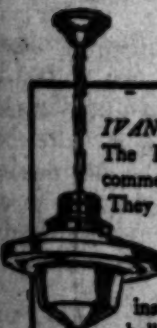

Look for the orange and blue "check" seal.

The electrical appliances shown on this page, together with other standard electrical products, certified by the "check" seal, are described in our new booklet, "The Electrical How for Householders." You will enjoy this booklet, with its many practical suggestions for the convenient and economical utilization of electricity in your home. It may be obtained free from any electrical contractor or dealer displaying this seal.

**MAZDA LAMPS**—MAZDA—not the name of a thing, but the mark of a service. It appears only on lamps which meet the exacting requirements of Mazda service. The Pacific States Electric Company distributes the Mazda lamp, supplying types for every purpose; it is one of the most important items of our complete line of electrical products.

**G-E RED CORE WIRE**—"Red Core" is a high class product used primarily for house wiring and conforms to the requirements of the National Board of Fire Underwriters. It may be identified by one red and one black thread woven parallel in the braid. All braided wires and cables, if so specified, can be furnished without extra charge with a coating of talc to facilitate installation in the conduit.

**IVANHOE ACE LIGHTING FIXTURES**—The Ivanhoe Ace is an enclosing unit for commercial lighting to be used with Mazda lamps. They are made of one piece crystal glass, coated with a special fired enamel, on the upper surface and edge to reflect light downward. Dirtproof and easily cleaned both inside and out. Recommended for assembly halls, school-rooms, offices, hotels, churches, banks, theatres, automobile display rooms, etc.

**GREENFIELD DUCT**—HOT GALVANIZED CONDUIT—Recognized as the standard by which all other galvanized conduits are compared. Greenfield duct is hot dip galvanized inside and out. It is superior in bending qualities and in durability, and is specified by the foremost engineers throughout the country. It is inspected and labeled under the supervision of the Underwriters' Laboratories, Inc.

**SPRAGUE GALVANIZED OUTLET BOX**—Sprague galvanized outlet and switch boxes represent the latest development in design and labor-saving features. Their strong construction and galvanized finish give them exceptional qualities of service and durability. They are made for use with both rigid and flexible conduits.

**GENERAL ELECTRIC CO. CONVENIENCE OUTLETS**—A complete line of standard receptacles, distinguished for their appearance and for convenience and durability of construction. Finished in brushed brass or in special finishes, if desired to match woodwork or color scheme of furnishings and decorations. General Electric convenience outlets are recognized as standard by Underwriters and technicians.

### News From South of Tehachapi

#### IRATE HUSBAND LANDS IN JAIL

Uses Gun to Enforce Law on Neighbor  
Objects to Wife Taking Auto Ride With Friends  
Says Other Man Admitted "Lady Killer"

ONTARIO, Aug. 9.—That not only did E. L. McDonald disregard his warning that he keep away from the Moore home, Grove avenue and Riverside drive, but that he took Mrs. Maria Moore on a motor trip to Walnut Park as well, was the declaration this afternoon of Samuel O. Moore, who in lieu of \$500 bail is in the City Jail to await his preliminary examination on a charge of assault with a deadly weapon upon complaint of McDonald.

According to McDonald, he drove to the Moore home yesterday, accompanied by his wife and baby and invited Mrs. Moore and her infant twin daughter to accompany them on a motor trip to Walnut Park. Mrs. Moore readily accepted the invitation and all went well until they returned to the Moore home when Mrs. Moore appeared in a rage and took McDonald to task for failing to heed his request and for taking his wife away during his absence from his home.

According to Mr. McDonald, Mr. Moore leaped on the running board of the car, slapped Mrs. Moore in the face and drawing a gun, struck McDonald twice on the arm with the weapon.

**FIRE ONE SHOT**  
Mr. McDonald, according to his story, finally forced the other off the running board and drove away. As he and his wife departed he says that Moore fired one shot.

When Mr. Arthur Ailey went to place Moore under arrest, he found the man and his wife seated on the ground with a shotgun lying between them.

**MAKES DENIAL**  
Mr. Moore denied this afternoon that he displayed a gun in McDonald's presence. He stated that he asked the motorist to get out of the car and talk to him, when the party returned from Walnut Park and that when the other refused to comply he stepped on the running board. He says that McDonald struck the first blow and that he acted in self-defense. Moore admitted firing a shot as McDonald drove away but declared that he pointed the gun at the ground.

Moore recited this afternoon how McDonald had boasted to him of his prowess with a loaded weapon and how as a result of the other's boasts he had warned him to keep away from his home.

Moore was arraigned today before Judge George R. Holbrook, who set his preliminary examination for not yet been set.

#### MAKE WAY HARD FOR MANAGER

Grand Jury Asked to Indict Former Official for More Serious Offense

RECEIVED DISPATCH  
ONTARIO, Aug. 9.—Coming as a startling change in the plan of prosecution in the case of the city of Ontario against Fred E. Alford, former City Manager who is said to have misappropriated \$40,000 of the city's funds, was the report today that Dep. Dist. Atty. M. O. Hart has asked the grand jury now investigating the case to indict Mr. Alford on charges of conspiracy instead of embezzlement as originally planned.

The change, it is said, was made in an effort to gain an indictment which will enable the introduction before a trial jury of evidence purporting to show numerous asserted discrepancies in the city's expense records, thereby strengthening the case against the former City Manager.

Mr. Alford was arrested July 19 on a warrant charging two offenses, padding of a pay roll and conspiring to defraud the city of \$2500 worth of pipe, said never to have been delivered. The proposed charge in the charge it is said would make it possible to introduce evidence of all so-called irregularities instead of merely the one case.

Nothing of the grand jury action thus far has been made public officially, but it is known that the witnesses thus far called have included City Clerk D. B. Wynne, Hugh Selts, a well driller, D. D. Clark and E. E. Clark. The investigation is expected to continue for several weeks.

From the defense came reports today that they are preparing to produce some startling and carefully guarded evidence which is expected to exonerate the former City Manager. Attorney Archie D. Mitchell represents Mr. Alford. The prosecution is also expected to ask that John E. Huling of Los Angeles, accused as a confederate of Alford, be indicted.

#### TO RETAIN SAN DIEGO GARRISON

War Department to Cut Down Force but Not Give Up Fort Rosecrans

RECEIVED DISPATCH  
SAN DIEGO, Aug. 9.—The Garrison at Fort Rosecrans will be reduced, but the fortifications will not be abandoned, according to a communication received this afternoon by the Chamber of Commerce from the Secretary of War.

Plans for the defense of all harbors and sections of the Pacific Coast, Secretary Weeks wrote, are now being prepared on the basis of reduced coast artillery personnel.

The War Department recognizes the importance of San Diego from a commercial and strategic standpoint and with much reluctance is forced to make reduction in the coast defense personnel.

"You may be assured, however, that a sufficient force will be left at Fort Rosecrans to keep the batteries in a state of readiness for full occupation and use in any emergency, and that in such an event ample protection will be provided."

The letter was in reply to protests forwarded by civic organizations when rumors were circulated that the post was to be abandoned. It was pointed out that the many permanent structures of the coast defenses would leave the post undefended by land batteries in case of hostilities.

#### PLANS ARE TO COMPEL EXTENSION

City Attorneys to Start Suit Against Yellow Line for New Tracks

Mandamus suits to compel the Los Angeles Railway Company to extend its First street line to First and Hill streets and possibly to First and Broadway, are now being prepared and will be filed at once, Asst. City Attorney Whitehead told the members of the City Council yesterday.

The Council months ago, as the result of many protests by the patrons of the First street line, ordered the railway company to lay tracks on First street between Olive and Hill streets and change the terminus of the line, which is now on Olive street between First and Second streets.

This the company has refused to do. Mr. Whitehead said, and the Councilmen yesterday asked what action was being taken to compel the company to obey the Council's order.

Patrons of the line, especially those living on Bunker Hill, protested that the present terminus of the line on Olive street was inconvenient and was a nuisance. The Council's order to the company was to lay tracks to Hill street, but a stipulation was made that the company was to establish the terminus at First street and Broadway, as the line could use the tracks already on First street between Hill street and Broadway.

#### Superiority of Women Shown in Registration

By a "Times" Staff Correspondent

PASADENA, Aug. 9.—More women than men are registered as voters in Pasadena, according to County Registrar Lyons. The final registration total is 23,567, including 11,569 women and 9,998 men.

Two-thirds of the number, or 14,399, are registered as Republicans, women again exceeding men, the figures being 7351 and 6958, respectively. Only 1971 are registered as Democrats, including 1539 women and 1432 men. Progressives total 58, with 32 women and 26 men. Prohibitionists number 1291, the women being 943 to 238, again in the women's favor. The Socialists alone counted more than women than men. They have a total of 248, with 145 men and 103 women. The remainder of the registrants declined to state party preference.

For the city election last March the registration was 16,976.

#### DECIDUOUS GROWERS FORM ASSOCIATION

LOCAL CORRESPONDENCE  
REDLANDS, Aug. 9.—Fruit growers in the southern part of the State yesterday organized the Deciduous Fruit Distributors' Association of Southern California, when they filed articles of incorporation in the office of the County Clerk.

The movement is toward a more economical marketing of fruit in the South. Every prominent fruit man in the county has joined or announced his intention of joining. The association is incorporated for a period of fifty years, and the thirty members of the board of directors are: J. B. Huntley, Yucaipa; I. Ford, Redlands; F. H. Richardson, Ontario; R. B. Patterson, Gilmore; Yucaipa; J. H. Strait, Redlands; P. B. Hasbrouck, Yucaipa; H. B. Woodruff, Costa Mesa; L. L. Lamson, Yucaipa; W. T. Smith, San Bernardino; H. P. Grabbie and G. W. Peters, Yucaipa.

#### EXCITES INTEREST

Many in Redlands Know Missionary in Danger Zone

LOCAL CORRESPONDENCE  
REDLANDS, Aug. 9.—There is keen local interest in the reports of a terrible typhoon and tidal wave at Swatow, China, for that is where the Rev. George Lewis, a Baptist missionary, well known here, now lives. Lewis and his family spent two years in Redlands, and returned to China just a few months ago.

He is in charge of a school maintained by the Baptists there. Two of his daughters remained in this country to go to school, and they have not heard from their father and brothers, but are convinced that he is well.

Rev. Lewis had been in China for about fifteen years, being stationed at Unghong, which is inland from Swatow, most of the time. He was a wonderful speaker and gave a series of lectures while here on China, and in one of them described just what a typhoon is, killed 25,000 or more people at Swatow.

### ACCUSED OF EXTORTION

Man Who Testified to Purchase of Liquor, Ordered Held on Impersonation Charge

The case against Mrs. Victoria Val, who, it is alleged, conducts a roadhouse at 4026 Mission Road, was heard by Commissioner Long yesterday on a complaint charging her with violation of the Volstead law. After the evidence was closed the commissioner held the case open until Prohibition Agent O'Leary could produce the stuff that it has been charged was sold by Mrs. Val.

Testimony indicated an attempted attempt to secure money from the woman.

**TELLS OF SEQUELE**  
Bert Canfield testified that with a party he had gone to the Val place on the night of October 8, last, and purchased a quantity of liquor. On October 11, last, he returned alone and bought some wine and whiskey, he testified. He was asked if he had not made a demand on Mrs. Val for the payment of \$300, and if she had not given him \$50 on account, with the understanding that he was to return on October 11 for the balance of \$250.

Canfield denied that anything of the sort happened. But he did state that when he went to the house on the second trip for the purchase of more liquor that he was met by two men, known as Anderson and Burns, who compelled him to sign a statement on the money, and in this he was corroborated by May Clark, who was present on the occasion of the first visit, when the alleged "shake-down" occurred. The liquor is in custody of Prohibition Enforcement Agent O'Leary.

Since the dates mentioned in yesterday's examination, Mrs. Val has been prosecuted and fined for violating the Volstead ordinance. On the charge of impersonation a Federal officer, Commissioner Long held Canfield to the Federal grand jury in a bond of \$2500.

#### TRIO HELD ON CHARGE OF WOMEN

Italians Arrested After Asserted Threats Are Made About Boose Fight

Because the lives of four attractive women were threatened, three Italians were taken to Police Court yesterday and charged with disturbing the peace. The men are said by the police to be members of a bootlegging gang engaged in a war with another gang here. The husbands of the women, whose names were threatened, have received threats from the gang to which the three men belong, according to the police.

The men are Nathan Diamond, Charles Bogoroff and Joe Axelard. They pleaded not guilty in Police Court and will appear September 24 for trial.

The women declared that they were threatened by the men as they were walking to their homes and warned not to tell anything about a quarrel which was said by the men to be impending. Of- ficer E. W. Leland of the City Heights station was called and gave chase to the car in which the men were riding. He finally overtook and captured the trio, two of whom were armed. A second automobile filled with gunmen had also stopped before the women's homes, but escaped.

The women are Mrs. A. D. McClellan, Mrs. Samuel Guidero, Mrs. Charles and Mrs. Otto Bohner. All live in a bungalow court at 2221 East First street.

#### Doctor Held Up by Bandit and Drugs Stolen

Entering the drug store of Dr. W. B. Humphreys, 1800 Central avenue, yesterday afternoon, an unidentified man drew a gun and then tied the doctor with a rope and proceeded to take \$300 in money and drugs valued at about \$50. After securing the loot the highwayman fled from the store. A few minutes later R. E. Jackson entered the store and found Dr. Humphreys in the prescription room, where the bandit had forced him to go. The police were then called.

The doctor consisted of heroin, cocaine, morphine and quinine. They were secured by prying open a drawer in which they were kept. The man was dressed in khaki overalls and wore a black fedora hat. He was described as being five feet, eight inches in height and was said to weigh 160 pounds. He is thought to be a native American and gave the appearance of being a mechanic. He carried a .45 caliber automatic Colt revolver. The police were searching for him late last night.

#### Noisy Italians Are Driven Out of Courtroom

Hearing on a cutting scrape between two Italians resulted in a near-riot yesterday in Justice Hanby's court. About fifty, equally divided in their sympathies, applauded or defied various witnesses until all were ordered from the courtroom. The two factions continued the verbal battle in the corridor until Constable Thomas ordered them out of the building.

Mike Tobinelli was accused of assault with a deadly weapon on Michael Di Stefano, but some witnesses stated that the defendant had been the victim of Di Stefano. Di Stefano, who, they said, was being attacked by her husband. Other witnesses denied this.

After a stormy session the court dismissed the case and released the defendant.

### -do you work for nothing?

YOU know the story of the Irishman, who, when asked why he was digging a ditch, replied: "I'm digging this ditch to get the money to buy the victuals to make the strength to dig the ditch."

That is just what all of us are doing unless each pay day we are putting aside a certain profit.

### TRAVEL BY WATER

**Check your Car like an Extra Trunk!**

ALWAYS ALERT to add to the convenience and pleasure of its guests, the Admiral Line has inaugurated a new auto-baggage service which makes it possible for you to take your car along with you at very little cost. Fact is, the cost is little more than an extra trunk. The rate is approximately \$25 to San Francisco, \$35 to Portland, Seattle or Victoria, B. C. (when accompanied by passengers).

Think how much having your car will add to the enjoyment of your visit to Northern California and the Pacific Northwest. These rates were intended for that purpose.

Ask any Admiral Line agent to explain this new auto-baggage service and the advantage of this travel-by-water way. Special reduced round trip fares now in effect.

## Corns Go Blue-jay to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it) and in extra thin plaster. The action is the same.

**Pain Stops Instantly**

Nurses & physicians recommend

## Resinol

For years they have relied upon it in the treatment of skin and scalp troubles, because they know that Resinol Ointment so quickly stops itching and generally clears away the disorder. From baby's slight rash to severe cases of eczema hundreds of letters bear witness to its healing power. It's easy to obtain—easy to use. Why don't you try it? All druggists.

## YOUNG MOTHER NOW STRONG

Her Mother's Faith in Lydia E. Pinkham's Vegetable Compound led her to try it

Kenosha, Wisconsin.—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother had great faith in it as she had taken so much of it and when I had trouble after my mother was born she gave it to me. It helped me so much more than anything else had done that I had no more trouble with my stomach and all women with female trouble to give it a fair trial and I am sure they will feel as I do about it.—Mrs. P. H. HANSEN, 608 Broadway St., Kenosha, Wisconsin.

A medicine that has been in use nearly fifty years and that receives the praise and commendation of mothers and grandmothers is worth your consideration. If you are suffering from troubles that sometimes follow child-birth and I am sure they will feel as I do about it.—Mrs. P. H. HANSEN, 608 Broadway St., Kenosha, Wisconsin.

The letters we publish ought to convince you; ask some of your women friends or neighbors—they know its worth. You will, too, if you give it a fair trial.

## ASK BOULEVARD BE RESTRICTED

Fear Business Buildings on Wilshire

Commission Sees Danger to Widening Project

Council Will Investigate Situation

Earnest pleas were made to the Public Welfare Committee of the City Council by City Planning Commissioner Aiken, City Planning Director Whitall and other speakers to prevent the locating of business establishments along Wilshire Boulevard, so that this can be developed, as proposed by the commission and the Community Development Association, into a 200-foot boulevard from the city to the sea, and making it one of the greatest boulevards in America.

There is pending before the City Council an application to change the zoning regulations so as to permit commercial and business establishments to be located facing Wilshire Boulevard, between Highland avenue and the western city limits, and the City Planning Commission as well as all others who are working for the improvement of Wilshire Boulevard are opposed to the granting of this application.

**PROJECT IN DANGER**  
"The granting of this application," said Planning Director Whitall, "will endanger the entire project of widening Wilshire Boulevard, as proposed by the commission and the Community Development Association, as well as endanger all of the zoning regulations of the city. The City Planning Commission has consistently and unanimously taken the stand that business and commercial establishments on Wilshire Boulevard must be preserved as a boulevard. It is our greatest street and the only one we have left that it is possible to develop into a thoroughfare of which the city will be forever proud."

Similar statements were made to the committee of which Councilman Allan is chairman, by M. S. Levy, a property owner in Wilshire Crest, and F. J. Raven of the J. Harvey McCarthy Company. Mr. Raven said:

**READY TO START**  
"The people of Los Angeles are asking the Council to do nothing that will stand in the way of the widening of Wilshire Boulevard into one of the greatest and most beautiful thoroughfares in the United States. A 200-foot Wilshire Boulevard is what the street wants, and a syndicate for which I speak is ready at any time to dedicate to the city fifty feet from the front of its Wilshire Boulevard property in order to permit this widening. The future of the great street of the city is at stake in the matter pending before you, and we ask that nothing be done to prevent the beautification of this great boulevard."

Chairman Allan said that nothing would be done by the committee until the Council had voted over the ground and made a thorough investigation of the situation. It is expected that the committee will support the commission in its stand in prohibiting the locating of commercial and business establishments along Wilshire Boulevard, and that the Council will adopt the committee's report.

## Philanthropic Body Proposes Home for Aged

For the two-fold purpose of deciding the date of the next annual convention of the Kings' Daughters of Southern California at Annandale, and of discussing plans for the building of a home for aged men and women of Los Angeles, prominent members of the Kings' Daughters circles throughout the Southland will hold a special meeting at 2 o'clock this afternoon in the Columbia Building.

There is an urgent need for a new institution in Los Angeles to care for our old and indigent citizens, said Mrs. Robert Bowles, State treasurer of the Kings' Daughters, southern branch. The Hollenbeck Home is doing splendid work and recently has doubled its capacity but it is still inadequate to care for all applicants. We believe that if our wealthy citizens could be made aware of the need for such an institution, they would gladly co-operate with us, donating either a site for the building, or possibly a site and a building. We are going ahead with our plans in the faith that the kind people of Los Angeles will assist us in our undertaking.

The Kings' Daughters is purely a charitable organization and is un denominational. Donations to the Old People's Home fund will be received by Mrs. Bowles, 1816 North Vermont avenue, phone 594802.

## OFFICERS FIND STILL IN PRISONER'S HOME

ARREST SISTERS OF MAN HELD ON GRAND LARCENY CHARGE

When Detectives Beaumont and Roberts went to the home of Y. Hernandez, 3707 Park avenue, yesterday to make an investigation of the man's home life, they discovered a large quantity of cash and a still in full operation. They arrested Mary, aged 21 years, and Constance Hernandez, aged 23 years, sisters of the man.

Hernandez had been previously arrested in the Hernandez case, when he attempted to sell an automobile which had been stolen here.

Hernandez is held on a charge of grand larceny, while the women are being held for the Federal authorities.

## RADIO FAN TO ENJOY FINE SHOW

Keen Interest is Taken in Event Being Arranged by Spanish War Vets

Under the auspices of the United Spanish War Veterans, the first radio set show to be staged in the West, will be staged here August 14 to 16.

The event is expected to be of interest to the amateur, the radio expert and the general public, whose radio activities are confined principally to listening in. Special nights will be scheduled for the show, and many novel features are planned. The contest for amateur builders is said to be creating a lively interest among young and old, and something unique in the way of sets will be included among the exhibits.

F. F. Heller of the Spanish War Veterans finance committee, and chairman of the radio show, announced that the event is two-fold in its purpose. It is staged for the advancement of radio science and information and to raise funds with which to entertain the visiting delegates to the United Spanish War Veterans convention in Los Angeles next month.

One of the features of special interest which the radio show will offer will be Prof. Twining's radio exhibit and his lectures on radio and radio therapy.

Gov. Stephens, Mayor Cryer and J. F. Dillon, radio inspector for the city, are honorary chairmen of the show.

## PICNIC FOR CHILDREN

Jinnistan Grotto to Entertain Masonic Home Youngsters

Children from the Masonic Home at Covina will be guests at a picnic Sunday at the summer camp of Jinnistan Grotto, Mystic Order Velled Prophets of the Enchanted Realm, at Balboa. Master Masons and their families have been asked to bring their automobiles and plenty to eat. The machines will leave from Ninth and Los Angeles streets at 9:30 a.m.

## WILLIS NOT WITH BUSINESS SCHOOL

An item in yesterday's Times regarding the divorce suit against Stephen T. Willis referred to him as the head of the Willis-Woodbury School at 218 West Eighth street. Mr. Willis has not been connected with the school since June 1, when he sold his interest to R. H. Whitte. The latter has changed the name of the school back to its original one of the Woodbury Business College.

## TELLS HOW TO PUT UP FRUIT

Instructional Booklet Will be Mailed Free on Request

The Department of Agriculture has issued a free booklet explaining modern improved methods of putting up fruit and vegetables so they will keep perfectly. It also gives tested recipes for preserves, butters, jellies, conserves and marmalades. Write name and address clearly on the coupon, inclosing 2 cents in stamps for return postage, and send to Los Angeles Times Information Bureau, Washington, D. C. To avoid wrong delivery at Washington use full address as given. Do not send to The Times' Los Angeles office.

## HUGS WANTED, NOT GLANCES

Bride Would Have Husband Act Newly Married

Spouse, She Says, Only Liked "to Look at Her"

Judge May Quis Defendant Why He's So Lax

Margaret Morrison had read of marriage without love, but she never dreamed that she would be the victim of a loveless marriage. She became the bride of Walter Morrison, an actor, and the honeymoon was a dream only. A bride expects kisses and hugs. She never received them. Mr. Morrison, she told Judge Reavis in annulment proceedings yesterday, showed her no affection at all.

"I like to look at you," he told her. "I like to look at you." But Mrs. Morrison grew tired of sticking around to be looked at. She could not win her husband to act like a newly married man. In all respects she was an orphan. She threatened to leave him. He admitted he could not love her, but did not want her to leave.

Mrs. Morrison corroborated by relative, told the court many details of her loveless married life, but the general public did not hear the story. It was excluded.

At the conclusion of the hearing of her annulment suit, the court said she would think it over. He will probably order the husband into court to explain why he married if he had no love to bestow on his bride.

## MOTHER FIGHTS FOR HER CHILD

Rosamond Burwell

A gray-haired mother, who will pass the half century mark next month, is guarding her 9-year-old baby, Rosamond, somewhere, in Los Angeles today, because she fears her former husband and his new wife are trying to get her child.

The mother, Mrs. Olive Tobey Burwell, graduate of the University and Tusar-Artist art school in Paris, France, and the author of several short stories and photoplays, divorced her husband, John M. Burwell, 10-year-old rancher of Clovis, Cal., a short time ago he married, Edith Viola, 15 years of age.

And while the mother guards her little girl, the former husband and his girl-wife are taking steps in the courts at Fresno to obtain custody of the child, accused the elderly mother of immorality.

"I am not the kind of woman they say I am. I am a good woman—a mother to the baby I will ever have," Mrs. Burwell declared as she wiped tears from her wrinkled cheeks.

"This is a picture of my girl," the mother said with a smile flashing across her face. "The baby I will ever have. And to think that another woman dares try to take the child I have brought into this world and risked my life for."

Since the divorce from her husband, Mrs. Burwell said, she had had worked as maid and housewoman, selling a short story now and then, to support herself and the child.

"I have scrubbed floors and washed dishes but it's been a glory because I have fed and clothed my little girl," she declared.

"All I fear is that when the case is called in Fresno I won't be able to be there because I haven't the money for a railroad ticket. And if I'm not there to tell them that the mother has a right to her child, I may lose my girl by default."

"It will only take \$25 for me to make the trip to fight to keep my child and if any someone who understands what it means to fear losing her only child would lend me that amount I would pay them back someday. Oh, I'd let them have anything I've got just so I may be there to fight for Rosamond."

Mrs. Burwell said she married the man who is now attempting to obtain custody of her child in Penryn, N. Y., in 1911.

## LIVE WIRE KILLS

Touching a live wire while working in Maywood late yesterday, Frank Hamm, aged 21 years, an employee of the County Flood Control, was so severely burned that he died shortly after in the Huntington Park Hospital. Hamm lived with his mother in Covina. His body was taken to the Huntington Park undertaking parlors.

## CIVIL WAR VETERANS TO ATTEND REUNION

The headquarters train of the G. A. R. will leave Los Angeles for the national convention at Des Moines on September 22 next, over the Salt Lake route. At Ogden the local train will join with the department commanders' train from San Francisco, and the two units will proceed the rest of the way in one body. The convention is to be held during the last week in September.

## Explosive

RELIEF FROM BURDEN TAXES

EXCLUSIVE

SAN FRANCISCO, Aug. 10.—(Exclusively) The administration's financial pledges of economy were not, in the opinion of some San Francisco officials, a sufficient reason for the governor, in an address to the legislature, to pledge the effort to reduce the tax burden.

Richardson pledged the effort to reduce the tax burden on the basis of the present wrecking of the economy.
